°Credit approved applicants only, fees, terms and conditions apply. The indicative repayments are a guide only. To take advantage of the Interest Free Term, the indicative monthly repayments stated would need to be made by the due date for each statement commencing from the first month. This monthly repayment excludes the \$99 Annual Fee, charged on the account open date and annually on the anniversary of the account open date. The Annual Fee needs to be paid in full within the 55 day Interest Free Term as part of the first repayment to avoid interest charges. The indicative repayments assume no additional purchases, cash withdrawals, fees or charges are incurred. Please note, the Minimum Monthly Payment (MMP) is 3% of the outstanding balance or \$30, whichever is greater. Making only the MMP would not repay the purchase price within the Interest Free Term. Interest, currently at 22.99%p.a., is payable on the balance outstanding after any interest free term.
