

UMK425 Loop Handle

Less weight and more power are two of the great features of Honda's Generation II Brushcutters.

INTRODUCTION

SUPERB POWER

Boasting the latest in Honda's ultra-compact, lightweight, 4-Stroke engines, Honda's UMK425 Loop Brushcutter offers superb power and more torque than ever before.

Honda leads the world with revolutionary mini 4-Stroke engines that deliver more power and use less oil than 2-stroke alternatives. The UMK425 Loop is powered by Honda's new Generation II GX25 Mini 4-Stroke engine delivering commercial-grade power.

And with its auto-decompression, electronic ignition and anti-flood primer system, the UMK425 Loop will start first time, every time, year after year. It's what you've come to expect from Honda.

NO MORE MIXING

The UMK425 Loop Brushcutter runs on unleaded fuel, so you'll never get your hands dirty having to mix oil and petrol again just to get the thing going!

Superior engineering means the UMK425 Loop will produce less noise and smoke, making it environmentally friendly - and easy on your body.

And you'll save money on 2-Stroke oil, compared to competitors. Especially relevant to commercial operators, why wouldn't you want a product that maximises your profits?

HONDA TECHNOLOGY

The UMK425 Loop Brushcutter features full 360° "any-side-up" operation, so you can use and store it in any position.

It delivers excellent torque and performance via an all-new Generation II, GX25 4-Stroke engine.

And user comfort is uncompromised too, with the UMK425 Loop handle featuring a comfortable solid drive shaft with unique anti-vibration engine mount.

WARRANTY

Honda backs each UMK425 Loop Brushcutter with a 4-year Domestic Warranty, so in the unlikely event you need some work done on it, the support is there for you.

The brushcutter also comes with a 3-year Commercial Engine Warranty and 12-month Commercial Frame Warranty, which is particularly reassuring if you plan to use it for heavy-duty, commercial work.

And your UMK425 Loop will be backed by a network of 400+ authorised Honda dealers around Australia, so you've got support wherever you are.

PERFORMANCE/USABILITY

Ergonomically designed easy-grip loop handle

Makes tough jobs easy with a tap-and-go nylon line head

PEACE OF MIND

Added protection with safety goggles and a single operator harness

BRUSHCUTTERS

Honda's range of Brushcutters prove yet again we lead the world in revolutionary engine technology

The unique mini 4-Stroke engines deliver power, performance and reliability that no 2-Stroke can match

Their ultra-compact, lightweight design means they're easier to handle and will keep you working longer with less fatigue

SPECS

SPECIFICATIONS
