

INVEST IN THE BEST

HONDA

GARDEN RANGE **2021**

Love my Honda

Battery power is now

We have launched a range of premium battery power equipment with all the quality, performance and durability you expect from Honda. Recommended for professionals and incredibly easy to use, the Honda Battery range requires very little maintenance and no fuel.

Here's what you need to know about the Honda battery range.

- You can work with less noise.
- There's no need to refuel so you can work with fewer breaks.
- All tools in the range are powered by our new Honda Universal Battery System.
- The battery delivers sustained power throughout the duration of its charge.
- With a fast charge time, you never need to stop for long.
- The entire range is designed for use in all weather conditions.

HHB36 BLOWER

2 Year Warranty*

CORDLESS+

PERFORMANCE SERIES

Honda power.

How's this for convenience? Use the same battery for every product you own.

Universal Battery System

This new Honda range is powered by Honda's Universal Battery System. Simple and convenient to use, a single lithium-ion battery is paired with a single charger to work across the entire range. There's no need for different batteries for each product you own. Three battery sizes are available to you - 4Ah, 6Ah and 9Ah. What's more, the LCD screen on the 9Ah lets you know instantly how much battery life and charge time you have left.

Thermo-Smart Technology

Quality and performance are assured with Honda Thermo-Smart, a class-leading technology that keeps the battery cool, even in demanding conditions and over long periods of use.

MOWER FEATURES

NEXITE® DECK

Extremely tough polymer material that will never rust, resists corrosion and abrasion and is super strong. HRX models only.

4-IN-1 VERSAMOW SYSTEM™ WITH CLIP DIRECTOR®

Honda's revolutionary Versamow System™ allows you to mulch, bag, discharge and shred leaves – or even a combination of mulching and bagging! Just slide the convenient Clip Director® knob to choose how much grass is bagged or mulched. No tools or costly attachments needed. HRX models only.

STEEL DECK

Rugged, durable steel deck is designed for long life. HRS and HRN models only.

3-IN-1 SYSTEM WITH CLIP DIRECTOR®

Slide the Clip Director® to switch from mulching to bagging or discharge with just one touch. No need for a mulch plug or other attachments. HRN models only.

ELECTRIC START

Effortless self-charging key start, to reduce the need for "plug in" charging. HRX217HZU only.

MICROCUT® TWIN BLADE SYSTEM

Honda's exclusive MicroCut® Twin Blade System uses four cutting surfaces that result in ultra fine clippings for superior mulching and up to 30% more clippings per bag. HRN and HRX models only.

MOW-SAFE – ENGINE BRAKE

A safety feature that stops the blades and engine within 3 seconds upon release of the handle.

SMART DRIVE

Easily adjust the mower's speed to your pace by rotating the control. Five position adjustable control for comfort. Variable speed from 0-6.5km/h. HRN216VKU and HRN216VYU models only.

MOW-SAFE – BLADE BRAKE

A safety feature that stops the blades within 3 seconds upon release of the handle, while the engine continues to run.

HYDROSTATIC CRUISE CONTROL

Honda's Hydrostatic Cruise Control allows precise speed control that's fully adjustable from 0-6.5km/h. HRX models only.

SIDE CHUTE

Unique to the HRS model, the side chute system means no wasted time emptying a grass catcher. HRS216PKU only.

EASY FOLD HANDLE

Easily adjust the handle to different comfortable mowing positions, or fold over for storage. HRS, HRN and HRX models only.

HRU MOWER RANGE ASSEMBLED IN AUSTRALIA.

Honda goes to extraordinary lengths to ensure best-in-market quality. We begin with the highest quality components, with each part individually inspected before entering the production line. We then build each mower, part by part, exceeding Australian industry standards at every stage. This exacting process involves multiple quality checks during and after production, including test-firing, to check ease of starting and the quietness of Honda's legendary 4-stroke engines.

- Perfect for light use and domestic applications

SUPER QUIET GENERATORS

3-STEP PROCESS TO ENSURE YOU GET THE RIGHT GENERATOR

1. WHAT DO YOU WANT TO POWER?

Whether you have a small caravan or something a little more substantial, knowing your appliance ratings is going to help you in the long run. Write a list of all the appliances you want to have running at one time. Then find out the ratings of each appliance. You need to take into account start-up power.

2. FACTOR IN START-UP POWER

Start-up power is simply the power an appliance needs to begin operating. Appliances that run an electric motor (air conditioners and water pumps) can require 3 times the operating load but this is usually only needed for a very short period. Check the compliance plate on the unit for specifications.

3. PICK THE GENERATOR THAT SUITS YOUR NEEDS

If you look at your list, there's a high chance you're not going to need everything running at once. A kettle draws a lot of power but only runs for a minute or so, it won't hurt to turn off some appliances while the kettle boils. Just make sure you have the essentials covered. Let's say your total running power requirement is 1500W, with a start-up power requirement of 1900W, then the Honda EU22i Generator will be the right fit.

If you are unsure, consult your Authorised Honda Dealer.

EU22i

4 Year
Warranty*

2200W
Max Output

Inverter
Technology

8 Operating
Hours*

Commercial
Quality

\$2099
RRP

- Greater fuel efficiency via Built-in Eco-Throttle
- Engine protected by low oil alert system
- Increased diameter of oil filler for improved draining and catching of oil

- Improved run dry switch allows the engine to continue running until majority of fuel is consumed before engine shuts off. This prevents stale fuel and is useful for storing.

EU22iTU4

*With Eco-Throttle switched on when rated at 1/4 output.
Usage applications are recommendations only.

SUPER QUIET GENERATORS

- 4 Year Warranty*
- 1000W Max Output
- Inverter Technology
- 8 Operating Hours*
- Commercial Quality

EU10i

4-STROKE
RRP **\$1499**

- Greater fuel efficiency via Built-in Eco-Throttle
- Engine protected by low oil alert system
- Our lightest inverter generator

EU10i1U4

- 4 Year Warranty*
- 3000W Max Output
- Inverter Technology
- 7.7 Operating Hours*
- Commercial Quality

EU30i HANDY

4-STROKE
RRP **\$3399**

- Greater fuel efficiency via Built-in Eco-Throttle
- Easy use handle and high mobility tyres
- Engine protected by low oil alert system

EU30iK1U4

- 4 Year Warranty*
- 3000W Max Output
- Inverter Technology
- 20 Operating Hours*
- Commercial Quality

EU30is

ELECTRIC START

4-STROKE
RRP **\$4239**

- Greater fuel efficiency via Built-in Eco-Throttle
- Engine protected by low oil alert system
- Hassle-free Key Start

EU30iS1U4

- 4 Year Warranty*
- 7000W Max Output
- Inverter Technology
- 18 Operating Hours*
- Commercial Quality

EU70is

ELECTRIC START

4-STROKE
RRP **\$6669**

- Greater fuel efficiency via Built-in Eco-Throttle
- Better than commercial quality electricity thanks to microcomputer controlled Sine-Wave inverter
- Engine protected by low oil alert system
- Easy storage and transport with a fold down handle and large diameter wheels
- Hassle-free Push Button Electric Start

Lifting kit: 06531Z11E00ZA
Wired remote control cable:
10m – 32380Z37800ZA
30m – 32380Z37820ZA

*4 Year warranty applies to domestic use and does not apply to engines sold as separate units. *With Eco-Throttle switched on when rated at 1/3 output. Usage applications are recommendations only.

OPERATING NOISE LEVEL CALCULATION

**LwA refers to sound power level and is measured at rated load, which is standardised by EU noise regulation. It is measured from 6 directions by a microphone placed 4 metres from the product in a closed anechoic room. This room is not affected by environmental conditions. **dB refers to sound pressure level and is measured from 4 directions (front, back, right and left) by a microphone that is placed 7 metres from the product and 1.5 metres from the lawn ground. It is not measured in a closed room. Therefore, the data is affected by environmental conditions such as temperature.

GENERATOR MAT

- Designed to fit the EU10i, EU22i and EU30iu Handy.
- Protects your generator from sucking up dust or sand while providing a stable non-slip platform.

Part no: L08GNMAT01 RRP \$55.84

PROTECTIVE COVERS

Protect your investment.

Part no: L08GC001R10 (EU10i) RRP \$97.60

Part no: L08GC001R20 (EU22i) RRP \$104.13

Part no: L08GC001R30 (EU30is) RRP \$117.13

Part no: L08GC002R30 (EU30iu) RRP \$128.38

HONDA SECURITY CABLE

1500 x 10 mm diameter cable, providing increasing cutting resistance with a protective polyurethane coat. This security cable is a great way of protecting your investment.

Part no: L210820 RRP \$19.95

THEFT DETERRENT BRACKET

Custom made, powder coated steel bracket with tamper-proof bolts to deter thieves.

Part no: 63230Z07010L RRP \$53.75

PARALLEL LINK-UP KIT

Link up two generators for double the power output. Only same models can be linked.

Part no: EU10i & EU22i 32360ZC3000L

RRP \$110.63

Max: 15 amp output

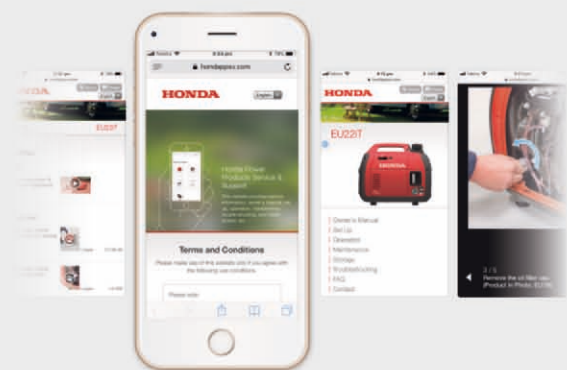

All prices listed include GST and are recommended retail prices only. There is no obligation to comply with the recommendation.

4-STROKE TECHNOLOGY

Honda has always been dedicated to developing human and environmentally friendly engines of the highest quality. It's why the company has been focused on 4-stroke technology for over five decades.

ABSOLUTE POWER

The flagship for performance and fuel economy, the high horsepower range incorporates Honda's revolutionary Boosted Low Speed Torque (BLAST™) technology and Lean Burn Control (ECOMO) to deliver powerful acceleration together with outstanding fuel economy during cruising. The same Variable Valve Timing and Lift Electronic Control (VTEC) technology used in Honda F1 cars is also found inside the BF150, BF225 and BF250.

LEGENDARY F1 AND MOTOR-RACING PEDIGREE

Innovations such as the VTEC™ system (optimising power and efficiency at all engine speeds) were borne out of Honda F1 technology. A challenging spirit and never-ending passion for racing fuels the development of technologies found in every Honda product.

INSPIRED BY ASIMO, HONDAJET AND THE NSX

Soichiro Honda's willingness to challenge convention and dream big can be found today in each of our gardening products. The same innovation used for advanced applications like robotics, corporate jets and supercars, also goes into manufacturing Honda Power Equipment products.

POWERED BY WORLD CLASS RESEARCH & DEVELOPMENT

Global state-of-the-art R&D facilities are dedicated to researching, designing and developing cutting-edge products. Honda continues to challenge the way the world thinks by looking to the future through technology and innovation.

ONLY GENUINE PARTS AND ACCESSORIES

Every engine has been manufactured to uphold Honda's strict quality standards. So the purchase of a Honda is an investment in a product that's made to last. This ensures that when it comes to repairs or replacement, genuine parts will keep it functioning at the optimum performance level that's expected.

A DEDICATED NATION-WIDE DEALER NETWORK

All of our dealers share the same level of commitment to the Honda brand as they do their relationship with customers. When it comes to sales, service and parts, you can always rely on a Honda Power Equipment specialist for knowledge and advice.

AUTHORISED HONDA DEALERS

OUR 400+ NATIONAL DEALER
NETWORK PROVIDES THE BEST
ADVICE AND AFTERSALES SERVICE.

SALES

Dealers participate in Honda's factory training, covering; sales, products and the exclusive Honda Certified Technician (HCT) training program. You can trust their valuable advice and experience to help you choose the product that's just right for you and your needs.

SERVICE

The technicians at our authorised dealers perform a full pre-delivery inspection (PDI) on every Honda machine. They also offer the highest levels of aftersales service to keep your product in peak condition. Of course, you can be assured that they'll only use genuine Honda parts and accessories. We also provide industry-leading training to technicians across Australia through the Honda Certified Technician (HCT) program. This ensures that they will service and repair your Honda to the highest – and safest – standards.

EXPERTISE

Our Authorised Dealers are true experts in their field, with years of experience under their belt. In fact, their knowledge and experience plays an important role in making sure that our Research and Development team receives frequent customer feedback, so we can ensure that new and improved Honda models continue to meet your future needs.
